Re: Docket Number: E-01345A-16-0036 + E-01345A-16-0123

Dear Commissioners,

Please do not allow APS to raise their fixed rate charges for small business owners like myself.

I understand that APS wants to increase my fixed rate cost. Being a small business owner, I find that any increase to utility charges can hurt my business.

I believe that I should only be responsible for paying for the electricity and associated costs that my business uses. Increasing the flat rate charge limits my ability to reduce my utility bill through good energy efficiency practices within the business.

Sincerely,

Arizona Corporation Commission
